DIGITAL WALLCOVERINGS

360° Digital Wallcoverings
è un progetto creativo di Industrie Emiliana Parati.
Questo è un nuovo percorso, intrapreso con passione, guidato dalla volontà e dall'entusiasmo di offrire un concetto più ampio, flessibile e versatile di soluzioni decorative.
Una visione globale sullo scenario dell'interior design futuro, porta ad una continua ricerca di idee, create per suscitare attenzione e curiosità, elaborate con la qualità e lo stile di sempre.
360° perchè l'applicazione non vuole limitarsi al mondo residenziale, ma vuole suggerire proposte originali per altri ambiti come hôtellerie, cinema, settore navale, store commerciali, ...
L'offerta di poter scegliere il tipo di supporto su cui stampare (vinilico, in tessuto, fibra di vetro) e di poterne personalizzare la scelta nelle dimensioni in cui svilupparla, amplifica il concetto di questo progetto a 360°.

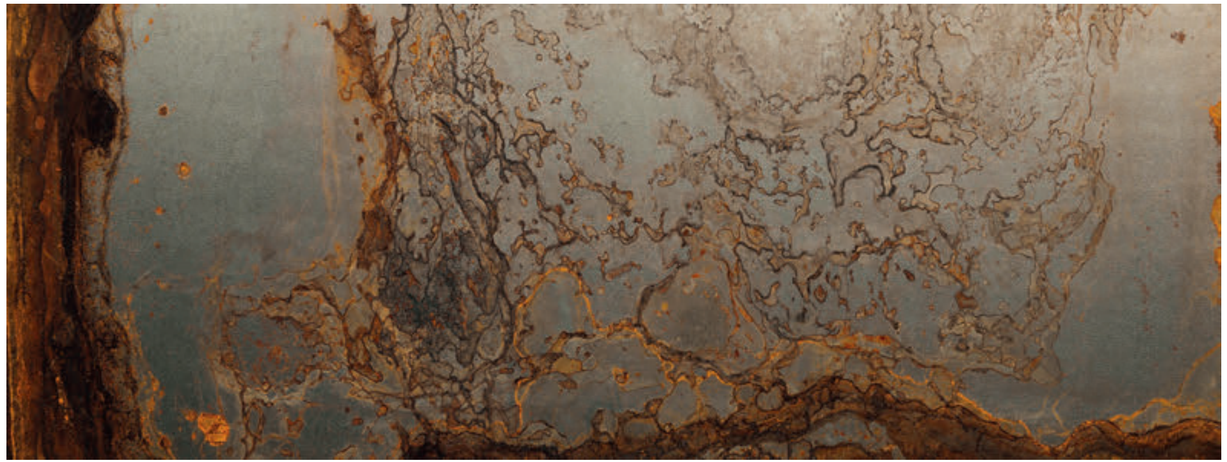

360° Digital Wallcoverings
is a creative project by Industrie Emiliana Parati.
This is a new path, undertaken with passion, driven by the will and enthusiasm to offer a broader, more flexible and versatile concept of decorative solutions.
A global vision of the future interior design scenario leads to a continuous search for ideas, created to arouse attention and curiosity, elaborated with the usual quality and style.
360 ° because the application does not want to be limited to the residential world, but wants to suggest original proposals for other sectors such as hotel-contract, cinema, naval sector, commercial stores, etc...
The possibility to choose the type of support to print on (vinyl, fabric, fiberglass), as well as the possibility to customize the dimensions in which to develop the design, amplifies the concept of this project at 360 °.
